

eClaim Mobile Application

Paperless, Fast & Convenient

eClaim eliminates the messy paper-work involved in a traditional manual claims process.

Runs in iOS, Android, and Web

How does eClaim Streamline in your Claim Process?

The eClaim process is streamlined to ensure quick, transparent, and consistent claim management, minimising the risk of employee misunderstandings and conflicts.

Key features of eClaim Mobile Application

Mobile Capture

Take a picture of the receipt, enter the details, and you're done

Approve On-the-Go

Receive notifications of expenses to approve and complete via mobile app

Integrated to Accounting

Expenses are posted directly to the General ledger

Cost Centers

Apply cost centers to employees and track expenses by project

Employee Paid

Capture and track expenses paid by employees and reimburse via bank payments

Multiple Claim Items

Support for multiple claim items on a single form

Apply Taxes

Set tax rates against expenses to automatically reclaim on tax submissions

Dashboards

Expenses can be viewed by type, project, or employee to ensure complete visibility of spending
